his two-bedroom version of the Waverton features the same spacious first-floor layout. As in all our models, oversized French doors and nine-foot ceilings bring a sense of grandeur to living areas. The woodburning fireplace with its hearth and facings of hand-set ceramic tile invites cozy evenings filled with pleasant conversation. An artful triad of high windows brings natural light into the stairwell and out onto the large upstairs landing. Pause for a moment in the master bedroom and notice the exceptional features that surround you: spacious wardrobes, two large picture windows, a dramatic vaulted ceiling, French doors opening onto a private deck, and a luxurious bath. In the second bedroom, visual interest is heightened by a windowed seating/desk alcove. Conveniently located near the bedrooms is a full-size windowed laundry room with generous storage.
